

ENDPOINT STAGING SERVICES

You can be confident that your Customer will have an exceptional out-of-box experience.

Dicker Data provides a comprehensive range of staging and configuration services for endpoint devices including desktops, workstations, tablets, thin clients, notebooks, NUCs and all-in-ones.

You can leverage our endpoint configuration services to manage everything from a single unit configuration to thousands of devices across large-scale rollouts. We can utilise our many years of experience to work with you to build a frictionless supply chain and remove complexity.

We offer complete flexibility and can customise our services to meet your specific requirements. This provides you with the ability to add scale to your operations and significantly increase your capabilities, whilst reducing fixed costs to your business.

From concept to completion the Staging Centre was designed and built with innovation at the forefront. Staffed by a team of full-time endpoint engineers, we have the knowledge and experience to support your needs across all vendors and form factors.

We offer you the option to integrate your own infrastructure, enabling your engineers to work with our onsite teams to act as an extension of your network.

Please reach out to our Services Team to arrange an onsite tour or to discuss your project requirements:

FLEXIBILITY

Customise our services to meet your requirements. We apply image format: WIM, .GHO, .TIB, .OCS, .SPF, .ISO. Ask us about other image formats as required.

SEAMLESS INTEGRATION

We can seamlessly integrate with your customers' operational environment or domain via a secure VPN.

SPEEDY DEPLOYMENT

You will reduce your operational costs and the time it takes to deliver to your Customer. This frees up your internal resources to focus on other tasks.

MINIMISE RISK OF DOA

We power on devices to minimise DOA upon arrival at site.

SCALE UP YOUR OPERATIONS

We provide you with the ability to respond to large tender requests. From item level customisation through to the rollout of thousands of devices.

EXPAND CAPABILITIES

By leveraging our staging services, you can increase your offering, providing value to your Customers without needing to invest in fixed resources.
